Dear Sir

Re: SID application, containing an EIAR, for a proposed increase to the waste processing capacity at a waste processing facility at Millennium Business Park, Cappagh Road, Dublin 11

1.0 INTRODUCTION

Starrus Eco Holdings Ltd.¹ has retained Tom Phillips + Associates (Town Planning Consultants)², to issue to Fingal County Council copies of a Strategic Infrastructure Development (SID) application in relation to a proposed development at their existing waste facility at Millennium Business Park, Cappagh Road, Dublin 11.

The subject development proposes to increase the annual waste intake limit at the facility from 270,000 tonnes annually to 450,000 tonnes annually. This proposed increase would facilitate an expansion in the facility's recycling/recovery capacity to satisfy growing demand in the city.

The need to provide adequate resource recovery and processing facilities is accelerated by the recent publication of *A Waste Action Plan for a Circular Economy - Ireland's National Waste Policy 2020-2025*. This forward-looking document seeks to shift the focus from waste disposal and a linear economy to a circular economy where materials and products remain in productive use for longer.

Furthermore, there is significant concern that existing waste infrastructure is gradually being eroded through the rezoning of land in Local Authority Development Plans.

This letter is provided in accordance with ABP's direction to notify the prescribed bodies.
